

NILindustrialday 2019

Final Conference Program available at www.nil-industrialday.org

Reduced Early Bird Fee until February 28, 2019

Dear Sir/Madam,

We are pleased to inform you that the final conference program is available at <http://www.nil-industrialday.org/conference/program/>.

The conference will be **held March 28-29, 2019 at SuperC, Aachen, Germany.**

Registration is open with reduced early bird registration available until February 28, 2019. For registration click [here](#).

The **NIL**industrialday is the most important event for early adopters of NanoImprint Lithography (**NIL**). It offers ideal conditions for information exchange on an international level.

It supplements scientific conferences by bringing together leading researchers and industry, promoting the use of **NIL** and related technologies as means for volume manufacturing.

The **NIL**industrialday primarily addresses existing opportunities for the application of **NIL** and **NIL** related technologies as manufacturing technique.

NILindustrialday 2019 addresses the following specific areas of applications:

- Life Sciences
- Optics & Photonics
- 3D Patterning and Mastering
- Global NIL Perspective

The enormous potential which offers **NIL** for industrial use as production technology will be shown.

There is still limited exhibition space available. For more information on exhibition and sponsorship opportunities click [here](#). For further information and assistance email us at nil@amo.de. We look forward to seeing you at **NIL**industrialday 2019.

This event will be organized by Michael Hornung (AMO GmbH, Conference Chair), Gabi Grützner (micro resist technology GmbH, Steering Committee), Michael Mühlberger (Profactor GmbH, Steering Committee)

If you need any further information please feel free to contact us.

Best Regards / Michael Hornung
On behalf of the local organizing committee
